DOCUMENT SETUP 3630(w) x 2260(h)mm + 20mm BLEED ALL AROUND
100dpi @ full size
CMYK colour

Useful Tips for Artwork Setup of Fabric 4x3

- Do not deliberately position the graphics at the end of the effective main graphic area due to shifting in the fabric placement. It is in our recommendation that graphics are placed entirely across the pop up for effective results.

- Take into consideration sewn lines (50mm wide from frame) and velcro placement for best results.
